

## The last year!!!

I should have done this a month ago, but remembering one of the [Pistols](#): "I'm a lazy bastard"

Anyway. These are some facts and thoughts from the last year:

First, the facts:

- I opened my heart
- I closed my heart
- I used my passport
- I had a lot of hangovers
- They finally set [Ingrid](#) free
- I went back to the stadium after 3 years just to see how the nacional team said goodbye to another world cup
- I went to my first [Rock al parque](#)
- A lot of ~~assholes~~ innocents were fooled by pyramids, trapezoids, or ilegal catchers (Not to mencin the legal ones, but they already existed)
- North America elected for the first time a black president. Remarkable in the social level, but irrelevant in the political. The good thing is that this one looks less violent than [Georgie W.](#)
- I finished my 500 days row without stupidities to regret (And this one was so expensive!!!)
- Even so, the stupidity was positive. It made me grow as person and as human being
- [La mechita](#) (Hard translation) got its 13th national title (Even without an ADIDAS T-shirt)

Now, the thoughts:

- Movie of the year: Batman, the dark knight
- Album of the year: [Intimacy](#) from [Bloc party](#) (See it live in [R.a.P.](#) makes it winner over [Dig out your soul](#) from [Oasis](#))
- Player of the year: The megalomaniac but crack [Cristiano Ronaldo](#) (Winner Over Lionel "I've not won relevant things yet" Messi)
- Quote of the year: "Man completes man... ..y the same way in the other way" Miss Antioquia
- Word of the year: Pyramid
- Mano f the year: It's a tie between [David Murcia](#) and Barack Osbama (Although the history of the Colombian Pharaoh has no previous records)
- Video of the year: The [Ana Karina](#) One!!!
